

Henslow George

Drayton House,
Galing.

Feb 2. 82

Dear Prof Gray,

I am writing
botanical articles for
the Encyclopaedia Brit.^a
& part of the information
I am anxious to acquire
is some details about
the introduction of European
& other plants into America
such as the Laurels, &c
Common, Portugal, May
&c. & other common

trees and shrubs, under
cultivation.

Can you oblige me
with any references
to works dealing with
such matters?

Your Manual of Botany
does not appear to
refer to such.

I want to know
the dates of introduction
show how they are
cultivated &c. -

If you could see
your way to giving
me any informa-
-tion I shall be
extremely obliged
to you.

With kind regards
Believe me to be

Yrs sincerely

George Huxton
